

ICS EXE 3

2026.03.20

Problem 1: Cache

1. 32 bytes

2. [1] 8 [2] 2 [3] 2

3. [1] H [2] 0xAB [3] H [4] 0x93

[5] M [6] - [7] H [8] 0xCC

[9] M [10] -

Problem 2: Storage Hierarchy

1. No. Because Hard disk need to seek and rotate before writing data; Because write granularity of SSD is larger than read granularity. If we do random write on SSD, it will cause write amplification to some extent.

2. [1] 1 [2] 2 [3] 5

3. [1] DRAM [2] Hard disk [3] SSD [4] PM
